

## Installing is as easy as 1-2-3!

Place latch in door jamb against inside edge. Holding latch firmly, mark holes. Drill 1/8" pilot holes. Install latch using enclosed screws.

Slide door to fully closed position. Open locking bolts on lock. Position lock on door. Centre lock over latch and close bolts. Drill 1/8" pilot holes through lock assembly. Install lock using enclosed screws.

Install cover plate by pushing firmly from side-to-side until it snaps into place.
